

Writing Arabic and English Texts using {Taha} and {wAw} methods

Geometric method (**Taha**) and Writing Arabic way {**wAw**} are used equally for writing Arabic and English texts by typing Latin matching letters (**lml**). By editing some capital Latin letters we obtain Arabic or English (**wAw**) texts written from left to right.

Arabic (lml) texts can be transformed into Geometric letters {**Taha**} by reversing the (**lml**) lines and by using the Geometric font. **English (lml)** texts can be transformed into Mirrored Geometric letters {**Taham**} by using the reversed Geometric font.
