```

O Palestine, o Palestine. We hear your desperate plea from the river to the sea.

The **Universal Phonetic Alphabet (UPA)** can be used easily by the Sighted and the Blind. **UPA** consists of three compatible alphabets:

- 1- {**Taham**} using reversed Arabic Geometric letters to write English from left to right.
- 2- {brAy} using Unified Braille letters matching {Taham} letters one by one.
- 3- {Iml} using small and capital Latin letters matching {Taham} letters one by one or {wAw} using small, capital and combined English letters in writing Arabic way.

A blind person using (**brAy**} alphabet can communicate with a sighted person using {**Taham**} alphabet by just a click to change the font of his text and vice versa.
